

**San Francisquito Watershed Council Steering Committee Retreat
May 9, 2007**

*“The best way to predict the future is to invent it.”
-- Alan Kay (computer scientist, b. 1940)*

- | | |
|------|---|
| 2:30 | Gathering |
| 2:35 | 1. Welcome and introductions – Pam Sturner |
| 2:45 | 2. Review purpose of the day – Pam
Introduce Debbie – Pam
Review agenda – Debbie Mytels |
| 2:50 | 3. Presentation: A different approach to watershed work: San Leandro Creek watershed example |
| 3:00 | 4. Discussion Round 1: Small groups of 4-5 brainstorm
“If we are successful, what will the watershed look like in 50 years?”
After 15 minutes, write down best idea you’ve heard |
| 3:20 | 5. Discussion Round 2: Mix up to create new groups of 4-5
Start by each reading the idea written on the card, then revisit the question: “If we are successful, what will the watershed look like in 50 years?” |
| 3:40 | 6. Harvesting the Ideas: Sharing and recording ideas from each group |
| 4:00 | BREAK |
| 4:10 | 7. Whole group brainstorm to generate ideas
“What do you think people who live in a watershed should know?” |
| 4:20 | 8. Small Group Discussion: Groups of 4 – 5
“Does the Watershed Council have a role in helping people learn about and understand the tradeoffs involved in making choices about watershed-related decisions? Why or why not?” |
| 4:35 | 9. Whole group discussion: Share ideas heard in small groups; pros & cons |

- 4:45 10. Wrap-up and evaluation
 Next steps for strategic planning & how today fits in – Pam
 Plus/ delta evaluation – Debbie
- 4:55 11. Announcements
 Next meeting
- 5:00 ADJOURN
